

Avery MPI 2004 HOP – Easy Apply Gloss white Permanent 80 mic.

MPI 2004 HOP EA comes with a white highly opaque face film and a clear adhesive, allowing to cover a full range of flat and slightly curved medium term regular and over posting applications and significantly reducing customer stock inventory (without the need to hold both clear and grey adhesive stock). The embossed backing is providing enhanced ease-of-use during application. Entrapped air can easily be rubbed out without the need to punch the vinyl film.
