

Product Datasheet

Overview:

Ecorol matt grey-back polyester roll-up film 200mic

Ecorol is a greener alternative to PVC film, designed to be the perfect option for cost-effective roll-up graphics. With a highly-opaque grey-back design, your banner won't be affected by light showing through, and the 95% whiteness ensures prints are vibrant and eye-catching

- Made from PVC-free polyester
- Typically has a lower carbon footprint than polyester and PVC
- Matt surface reduces glare
- High opacity level to reduce show-through
- Flexible design that's free from curling
- Perfect for retractable roller banner stands

Applications:

The perfect choice for exhibitions, events and retail promotions, designed to work with roller banner systems along with many other applications including vertical hanging banners and posters.

Compatibility:

This product has been tested for use with the following ink technologies;
Latex
Eco-Solvent
UV-Curable

Para HP Latex, recomendamos una temperatura de secado entre 70 y 90c

Usage and durability:

We recommended an application temperature of 18 °C to 28 °C, and a relative humidity of 50%
