

TITAN

TITAN LAM

Ultra-tough armor for printed powervehicle graphics.

TITAN overlams are a non-negotiable to protect your unique prints, whether off-road or on the track. Thick and durable, yet conformable enough, our overlaminating films offer the protection needed to cope with scratches, chipping and tear while maintaining the clarity and vibrancy of your graphics.

TITAN LAM 300 GLOSS | TLG-300

The go-to overlam for your printed graphics. UV-resistant and 300 microns thick to withstand the toughest conditions. Providing the highest gloss and clarity out there thanks to its polyester liner, making your colourful designs truly come to life.

TITAN LAM 300 MATT | TLM-300

Need a matt finish for your prints? Look no further. This 300 micron film is strong and glare-free for optimal readability.

TITAN LAM 150 GLOSS | TLG-150

The solution when you need an ultra conformable, high gloss overlam. TITAN LAM 150 has a hydrophobic topcoating that will make your graphics water, dust and mud repellent.

TITAN LAM 250 GLOSS | TLG-250

Pair this 250 micron overlam with TITAN BLITZ print vinyl for shorter term solutions.
