Material Safety Data Sheet Reprographic Systems & Media Supplies Ltd

CM80009000INKC - Inkjet Pigment Cyan

MSDS Number: CM80009000INKC

Revision Date: March 6, 2006

PRODUCT AND COMPANY IDENTIFICATION

Manufacturer

Reprographic Systems & Media Supplies Ltd
Unit 4, Park Road
Pleshey, Chelmsford
Essex, CM3 1JA, UK

Contact: Simon Lance

Telephone Number: +44 (0)1245 237177

FAX Number: +44 (0)1245 237178

E-Mail: info@reprographicsystems.co.uk

Product Name: CM80009000INKC - Inkjet Pigment Cyan
Revision Date: March 6, 2006
MSDS Number: CM80009000INKC
Product Use: Inkjet Desktop Printers & Plotters

HAZARDS IDENTIFICATION

Route of Entry: Potential routes of exposure to this product are skin and eye contact, ingestion and inhalation.
Target Organs: None known
Inhalation: Inhalation is an unlikely route of exposure for this product due to physical properties.
Skin Contact: Wash affected areas thoroughly with mild soap and water. Get medical attention if irritation develops or persists.
Eye Contact: Do not rub eyes. Immediately flush with large amounts of clean, warm water (low pressure) for at least 15 minutes or until particles are removed. If irritation persists get medical attention.
Ingestion: Ingestion may cause diarrhea or gastrointestinal irritation.

HMS II-ratings (scale 0-4): Health = 1, Fire = 0, Reactivity = 0

HMS III-ratings (scale 0-4): Health = 1, Fire = 0, Physical Hazard = 0

NFPA-ratings (scale 0-4): Health = 1, Fire = 0, Reactivity = 0

COMPOSITION/INFORMATION ON INGREDIENTS

Ingredients:

Cas #	Chemical Name	Perc.
7732-18-5	Water	60-90%
111-46-6	Diethylene Glycol	15-45%
Not Assigned	C.I. Pigment Blue 15:4	1-10%

FIRST AID MEASURES

Inhalation: Inhalation is an unlikely route of exposure for this product. If irritation or other symptoms occur, remove to fresh air. Get medical attention if irritation persists.

Skin Contact:

Wash affected areas with soap and water. Remove contaminated clothing. Get medical attention if

MSDS

Material Safety Data Sheet

Revision Date: March 6, 2006

Eye Contact: irritation persists.
Flush with plenty of water for 15 minutes, especially under eyelids. Get medical attention if irritation persists.

Ingestion: Do not induce vomiting. Consult a physician or poison control center immediately.

FIRE FIGHTING MEASURES

Flash Point: >360 F (COC)

Autoignition Temperature: N/D F N/D C

LEL: N/D

UEL: N/D

Flammability Limits: Not applicable

Extinguishing Media: Foam, alcohol foam, CO₂, dry chemical

Special Fire Fighting Procedures: Fight as volatile fire. Closed containers may explode when exposed to extreme heat. Keep away from areas exposed to fire.

Unusual Fire and Explosion Hazards: Keep containers closed tightly and store in a cool dry place when not in use. If soaked rags are not placed in containers half-filled with water, this material could cause spontaneous combustion.

Hazardous Decomposition Products: Thermal decomposition may yield carbon dioxide and/or carbon monoxide.

Material Safety Data Sheet

Revision Date: March 6, 2006

ACCIDENTAL RELEASE MEASURES

Small Spill: Construct temporary dikes of dirt, sand, or any appropriate readily available material to prevent spreading of the material.

Wearing the appropriate personal protective equipment designated in Section 8, move the leaking container to a containment area or rotate the container so that the opening is above the liquid level.

Absorb on diatomaceous earth or equivalent inert material. Shovel up and dispose of at an appropriate waste disposal facility according to current applicable laws and regulations, and product characteristics at time of disposal.

Large Spill: Construct temporary dikes of dirt, sand, or any appropriate readily available material to prevent spreading of the material.

Wearing the appropriate personal protective equipment designated in Section 8, close or cap valves and/or block or plug hole in leaking container and transfer to another container.

Contain material as described above and call the local fire or police department for immediate emergency assistance.

Environmental Precautions:

Water Spill: Use appropriate containment to avoid runoff or release to sewer or waterways.

Land Spill: Use appropriate containment to avoid runoff or release to ground.

Release Notes: If spill could potentially enter any waterway, including intermittent dry creeks, contact the local authorities. If in the U.S., contact the US Coast Guard National Response Center toll free 800-424-8802.

In case of accident or road spill notify:
CHEMTREC in USA at 800-424-9300

Comments: See Section 13 for disposal information and Section 15 for regulatory requirements. Large and small spills may have a broad definition depending on the user's handling system. Therefore, the spill category must be defined at the point of release by technically qualified personnel.

HANDLING AND STORAGE

Handling Precautions: Handling: Avoid eye and skin contact.

Storage Requirements: Do not store near open flame or sources of ignition. Do not store in high temperature storage. In case of fire, remove closed containers from areas exposed to the fire. Empty containers usually still hold residues of material and vapors. These must be considered hazardous and disposed of in accordance with proper handling procedures prescribed for hazardous chemicals.

MSDS

Material Safety Data Sheet

EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Controls: If dust, vapors, or mists are generated, provide local exhaust ventilation to control airborne levels below exposure limit. All ventilation should be designed in accordance with OSHA standard (29 CFR 1910.94).

Protective Equipment: HMIS PP, C | Goggles, Gloves, Apron
Ventilation: General ventilation should be adequate for normal use. Use adequate mechanical (general and/or local) ventilation to maintain exposure levels below the exposure limits.

Respiratory Protection: None is required if adequate general ventilation is provided, If the exposure limits are exceeded use NIOSH/MSHA approved organic vapor and mist, supplied air or self contained breathing apparatus.

Skin Protection: Protective clothing to protect against splashing of liquids onto skin. Neoprene, Buna N, or polyethylene gloves should be worn to prevent prolonged contact.

Eye Protection: Use chemical splash goggles or other OSHA permitted safety glasses, if splashes are possible.

Other Protective Equipment: None normally required.

Exposure Guidelines/Other: **Work Hygienic Practices:** Facilities storing or using this material should be equipped with an eyewash facility and/or a safety shower. Good personal hygiene practices should always be followed.

PHYSICAL AND CHEMICAL PROPERTIES

Appearance:	Colored Liquid	Boiling Point:	>212 F
Physical State:	Liquid	Freezing/Melting Pt.:	<32 F
Odor:	Mild, Musty	Solubility:	Water Soluable
pH:	Not applicable	Spec Grav./Density:	1.0 - 1.05
Vapor Pressure:	Not applicable		
Vapor Density:	Heavier than air		

STABILITY AND REACTIVITY

Stability: Stable under recommended storage conditions.

Conditions to avoid: Avoid open flames, welding arcs or other high temperature sources which induce thermal decomposition and fire. Avoid strong acids or alkalis. Avoid long term contact with water.

Materials to avoid (incompatibility): Strong oxidizers

Hazardous Decomposition products: May form carbon dioxide and/or carbon monoxide

Hazardous Polymerization: Will not occur.

TOXICOLOGICAL INFORMATION

The ink formulation has not been tested.
Refer to Section 3 for potential health effects and Section 4 for first aid measures.

ECOLOGICAL INFORMATION

This product has not been tested for ecological effects.

DISPOSAL CONSIDERATIONS

Disposal Method: Dispose of waste at an appropriate waste facility according to current applicable laws and regulations.

For Large Spills: Contain material and call local authorities for emergency assistance. In consultation with the appropriate authorities, determine the disposal method.

Product Disposal: Dispose of at a supervised incineration facility or an appropriate waste disposal facility according to current applicable laws and regulations and product characteristics at time of disposal.

Empty Container: Rinse drums with a suitable solvent and steam to remove vapors before disposal or reuse in accordance with applicable regulations.

General Comment: Refer to Section 6, Accidental Release Measures for additional information.

TRANSPORT INFORMATION

Not a regulated article under United States DOT, IATA, ADR, IMDG, or RID

Proper Shipping Name: Not applicable

Technical Name: Not applicable

UN Number: Not applicable

Hazard Class/Packing Group: Not applicable

Labels Required: None

MSDS

Material Safety Data Sheet

REGULATORY INFORMATION

EPA SARA 311 Hazard Classification: Acute health

EPA SARA 313 Chemicals: These products contain the following chemicals listed under SARA 313, however, would normally be covered by the article exemption and not subject to reporting: None

Hazardous Substance (40CFR 116) CERCLA: None

Reportable Quantity: Not applicable

EPA Toxic Substances Control Act (TSCA) Status: All the components of this product are listed on the TSCA inventory.

REGULATORY KEY DESCRIPTIONS

APP9 = Appendix 9

CERCLA = Superfund clean up substance

EPCRAWPC = EPCRA Water Priority Chemicals

HAP = Hazardous Air Pollutants

HWRRCRA = RCRA Hazardous Wastes
